Policy Review Schedule

Introduction

- The AI Policy is supported by a set of topic-specific policies, with most of the Policy set on an annual review cycle. Three of the topic-specific policies are scheduled to be reviewed biannually, due to the fact they relate to topics in evolving areas that may be subject to more frequent regulatory or legislative changes.

Relationship to Other Management Systems

- This schedule sets out the review cycle for the AI Policy Set. Other policies relevant to AI, such as the Change Management Policy and the Information Security Policy are managed through other management systems, such as the Information Security Management System.
