Management Review Process

Purpose

- The purpose of this document is to provide a single framework for the management review of <<organization's>> Artificial Intelligence Management System (AIMS) in order to ensure the System's continuing suitability, adequacy and effectiveness.

Scope

- This process covers activities undertaken when preparing, undertaking and recording a management review of the AIMS.
- This process covers the two types of review undertaken by <<organization>>, which are:
    - AI Management Review (AIMR): Monthly review
    - Senior Management Review (SMR): Annual review.

Responsibilities

- The AIMR will be chaired by the Risk and Compliance Lead and will meet monthly, however where this is not possible no more than two months shall pass before a meeting takes place.
- The SMR will be chaired by the Chief AI Officer and will meet at least annually.

BSIIndia

Reviews

AI Management Review

- The purpose of the AIMR is to:
    - Ensure that AI requirements meet the business objectives
    - Identify AI related roles, responsibilities and authorities that shall be allocated within the organization
    - Identify changes and exposure of AI systems to different types of threats and vulnerabilities
    - Monitor risk treatment activities
    - Ensure that AI objectives and plans are established
    - Ensure that AI activities are executed in conformance to the AI Policy Set
    - Establish means of ensuring conformance to the AI Policy and reviewing these measures periodically

- Effectively promote AI education, training, and awareness throughout the organization
- Evaluate information received from the monitoring and reviewing of incidents, and recommend appropriate actions in response to identified incidents.

- The agenda for the AIMR meetings shall include, but not be limited to the following items:
  - Actions from previous meeting
  - Incidents (including lessons learnt)
  - Changes in external and internal issues
  - Results from audits and reviews
  - Corrective actions
  - Feedback from interested parties and changes in needs and expectations of interested parties relevant to the AIMS
  - Risk management:
    - Risk treatment/acceptance
    - Risk assessment
    - Risk register
  - AIMS performance reviews / monitoring and measurements
  - Training/education/competency
  - Opportunities for continual improvement
  - AOB.

Senior Management Review

- The SMR will cover the following topics:
  - Provide oversight of the activities of the AIMR
  - Review and approve the AI Policy and set the scope of the AIMS
  - Ensure that sufficient resources are provided to develop, implement, operate, and maintain the AIMS
  - Approve methodologies and processes for information security, e.g., risk assessment, AI impact assessments
  - Monitor and measure the effectiveness and efficiency of the AIMS
  - Ensure that adequate steps are taken, on an ongoing basis, to improve the AIMS.
- The agenda for the SMR meetings shall include, but not be limited to the following items.
  - Actions from previous meeting
  - Review of activities of the AIMR (including frequency of meetings)
  - Changes in external and internal issues
  - Summary results from audits and reviews

- Feedback from interested parties and changes in needs and expectations of interested parties relevant to the AIMS
- AIMS performance reviews / monitoring and measurements
- AI objectives
- Opportunities for continual improvement
- AOB.

Management Review / Report / Minutes

- The outputs from the reviews shall be formally documented, filed and distributed to those taking part and, if necessary, to action owners.
- The output from the reviews shall include any decisions and actions related to the following:
  - Improvement of the effectiveness of the AIMS
  - Update of the risk assessment and risk treatment plan
  - Update of processes and controls that affect key processes, as necessary, including changes to:
    - Business requirements
    - AI requirements
    - Business processes effecting the existing business requirements
    - Regulatory or legal requirements
    - Needs and expectations of interested parties
    - Levels of risk and/or risk acceptance criteria
    - Management system documentation
    - Resource needs
    - Improvement on how the effectiveness of controls is being measured.
