Introduction

- To fully assess risks and impacts for interested parties, it is necessary to identify the requirements that may be relevant to the interested parties.
- This document sets out the relevant information requirements for internal and external interested parties. As with AIMS0010 Interested Parties, this document covers the only operational AI solution at the time of writing, Healthcare AI. As additional AI solutions come on stream this document will be updated to reflect additional interested parties.

Information for Interested Parties

Overview

- Information requirements for internal and external interested parties are set out in Table 1 below. All anticipated external parties are covered, either as individual interested parties that have specific information requirements, or groups of third parties that have common information requirements.
- Note that this document does not map one-to-one with AIMS0010 Interested Parties, since some of the interested parties in AIMS0010 are covered by groups set out in this document.

BSI India

Table 1: Information for Interested Parties

Name/Type	Type	Description	Relevant Information
CEO	Internal	Retains responsibility for AI ethics	AIMS management reporting Environmental impact
Chief AI Officer	Internal	Sets technical vision and AI guardrails	AIMS management reporting AI solution development status Environmental impact
Data Management Team	Internal	Manages data collection, processing and usage	Data provenance Model design and performance Data quality Data consent Regulatory, legislative and standards requirements System / model changes

AI Development Team	Internal	Builds, trains and validates AI models	Industry best practices Monitoring of coding efficiency Data quality requirements Regulatory, legislative and standards requirements
Quality Assurance Team	Internal	Tests the performance of AI systems against metrics	Data quality requirements Regulatory, legislative and standards requirements Development/release schedules System / model changes
Legal Team	Internal	Ensures adherence to regulations	Legislative requirements / changes Data privacy process compliance
Risk and Compliance Team	Internal	Owns and maintains the AIMS, performing risk assessments and internal audits	Changes to AIMS documentation. AIMS monitoring information Development/release schedules System / model changes Awareness programme completion rates
Finance Department	Internal	Enables investments into AI governance systems	Departmental budgets AI strategy roadmap AI tooling requirements
Procurement Team	Internal	Vets and onboards suppliers providing AI products/services	AI strategy roadmap AI tooling / service requests KPIs for supplier monitoring reviews
AI Ethics Team	Internal	Monitors data usage for biases and ensures compliance with fairness and transparency guidelines.	Regulatory, legislative and standards requirements Results from data management process System / model changes
Cybersecurity Team	Internal	Ensures all aspects of information security throughout <<organization>>.	AI incidents Data privacy breach details
IT Team	Internal	Procures, manages and operates internal IT systems.	AI tooling / service requests System performance metrics Environmental impact
HR Department	Internal	Recruits and nurtures ethically-grounded AI talent	AI incidents Job descriptions / competency requirements Staff performance Organization structure / vacancies
Employees	Internal	Use AI technology (internally developed or sourced from third parties) in support of business activities.	AI Acceptable Use Policy AI products/tooling Procedures involving the use of AI products
Investors and Shareholders	External	Fund company's AI aspirations eyeing returns	Financial reporting Business risk reporting AI incidents
Customer organizations	External	Use AI for business process improvements	Contracted services Resolution of service issues System / model change scheduling
Regulators and Government Bodies	External	Issue AI usage guidelines and compliance	Relevant AI incidents
Standardization Agencies	External	Publish codes of practice around AI systems management	Audit information for certifying bodies

Researchers and Universities	External	Publish studies on AI techniques and implications	Collaborate to ensure ethical R&D
WEALIGN	External	Represents QA automation partner	Data quality reports
Algorithmia	External	Hosts global algorithm marketplace	Model information
EdgeImpulse	External	Provides embedded ML solutions	Usage information against licenses
Cloud Service Vendors (AWS, Azure)	External	Offer infrastructure for scaling AI	Service requests Usage information against licenses
Media Companies	External	Report on AI deployments, perceptions	Press / media releases
Legal Counsels	External	Guide minimizing AI liabilities	Model usage agreements Customer agreements / licensing terms
Data Aggregators	External	Source datasets for model training	Usage information against licenses
Data Providers	External	Source datasets for model training and production operations	Usage information against licenses
Tech Activist Groups	External	Champion AI for social good	Press / media releases AI solution information Model information
Public Sector Healthcare Agencies	External	Use Healthcare AI application	Healthcare AI service
AI Industry Groups and Startups	External	Peer organizations offer complementary solutions	Scope possibilities for mutual value addition
